Juror's Statement

Marla Rice

I want to express my appreciation for the opportunity to become acquainted with and review the artwork which was submitted to me. It was a difficult process to pick and choose between so many talented artists.

The criteria for my selection included: the individual artist's grasp of the medium, her pushing past boundaries and limits, and, what I judged to be quite simply the overall quality of the work.

I looked for diversity as well as development of subject, composition and technique, whether this was achieved through sheer virtuosity, or through imagination and innovativeness.
